Salaries and wages	14600	insurance	6900
Land	92000	raw materials	20000
2 year loan	175000	bank overdraft	30000

Categorize the information provided as: Assets, owners' equity and liabilities.

PART II

1. In most developing countries, many people are generally poor. The social and economic conditions are not as good as should be. **Socio-economic development** is the process of social and economic development/ improvement in a society. Among the solutions we need to create business so that we contribute to socio-economic development.

(Note: five points are enough for each sub question)

- a. Explain briefly the factors and indicators of socio-economic development. /5marks
- b. Briefly explain the interdependence of business and the natural environment /5marks
- c. How entrepreneurship contributes to socio-economic development /5marks
- d. Identify some acts of social responsibility/5marks

2. The government of Rwanda through Rwanda Environment Management Authority (REMA) and EIA guidelines expects entrepreneurs to be cautious and careful with goods produced, the technology used, the materials used for the production and their probable impact on the human health and the environment. If the product/project does not meet the requirements of the standard it is not permitted for further production and the owner will have to change the technology and the structure of the product. With the ever increasing rates of urbanization and population growth rates the economic activities if not well addressed are bound to impact negatively on the environmental attributes of the project areas and its surroundings. Kigali being the capital city of the country, it continues to have the most economic activities and population. With the above economic situation, the economy and the environment are bound to be affected negatively and positively and thus entrepreneurs intending to start any project have to prepare appropriate Environmental Impact Assessment reports showing most sustainable and cost effective way of mitigating any negative impact that may arise as a result of the implementation of the proposed project.

Referring to the above case study, answer the following questions:

- a) What do the Environmental Impact Assessment guidelines expect entrepreneurs to be observant of? /4marks
 - b) What are likely negative effects of the business activities or projects to the environment and Kigali community at large? /10marks
 - c) What strategies would you propose to the entrepreneurs in Kigali to mitigate the likely challenges as a result of the projects started? /10marks
3. Enumerate any five business operations by which a contract can be made. /10marks
- 4.i) what is a bookkeeping? /2marks
- ii) You are required to draw-up the journal for the following transactions of Cecile's enterprise. .
